

June 2011

**FOR DAD!**

Don't forget Dad this month! If your father likes to watch birds he will enjoy this birdfeeder. The feeder comes unplanted but you can plant the roof as I have done. I used succulents for summer but will use viola's in the fall. A little something different and interesting – forget the tie!

The months of June and July we will be giving away four gift certificates. When you come by in June or July you will receive a ticket. We will have our drawings on the 15<sup>th</sup> and 30<sup>th</sup> of each month. Four lucky people will receive a \$25.00 gift certificate. It might as well be you. Come on in and see our full inventory. No purchase necessary. We have a large selection of annuals, perennials and shrubs.

We have a **SALE** going on. Privot and Crype Myrtle in 3 gallons containers are \$9.99. Also Pentas, buy 3 and get one free. Buy one get one free on Vegetables.

Daylilies are so gardener friendly. They need very little care and the repeat bloomers will bloom all season. Later in a few years they can be divided

We can still plant in the heat. The plants will thrive with good soil amendments, mulch and water. The new plantings need at least 1 inch of water per week. The Erth Healer is a wonderful way to mulch as well as fertilize.

If you are going on vacation make sure you have someone to water your plants while you are away. Nothing can put a downer on a vacation like coming home to dead plants.

**July Hours: Monday thru Saturday 9-6**

**August Hours: Tuesday thru Saturday 9-4**

**We are always closed on Sunday. We like to allow our staff time to worship and rest.**
